FEN LİSELERİ VE NİTELİKLİ OKULLAR SINAVINA HAZIRLIK

KİTABIMIZI TANIYALIM

2023 Eğitim Vizyonu ile birlikte hedeflenen ölçme ve değerlendirme yaklaşımında değişimler olmuştur. Bu kapsamda akıl yürütme, eleştirel düşünme, yorumlama, tahmin etme vb. zihinsel becerilerin sınanması öne çıkacaktır. Bilgi depolamak, formül ezberlemek gibi işlemlere ihtiyacın kalmadığı bir yaklaşım sergilemek en büyük hedefler arasındadır. Millî Eğitim Bakanlığı bu kapsamda hedeflediği ölçme değerlendirme kriterlerine ulaşmak için ortaokul öğrencilerine yönelik olarak beceri temelli (yeni nesil) sorulardan oluşan örnekler sunmaya başlamıştır.

Tüm bu hedeflere uyumlu olarak hazırladığımız 7. Sınıf İngilizce Güçlendiren Soru Bankamız yeni sınav sisteminde en büyük yardımcınız olacaktır. Kitabımızı hazırlarken her konuyu yeni öğrendiğinizi dikkate alarak aşamalı bir sistem izledik.

Kitabımızdaki her üniteyi önemli kelimeler (important words), kelime testleri (vocabulary tests), ünite testleri (unit tests) ve beceri temelli testler (skill-based tests) olmak üzere dört temel bölüme ayırdık. Bu bölümlerde kolaydan zora öğretim tekniğini kullanarak konuları daha iyi öğretmeyi amaçladık.
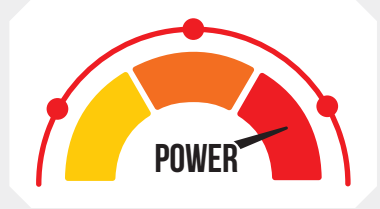

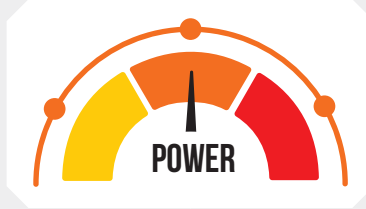

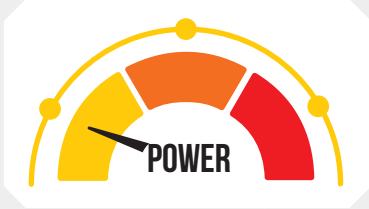

Bu yöntem ile öğrencilerimiz hangi seviyedeki testlerde hangi düzeyde olduklarını ölçebilecek ve kendi gelişimlerini gözlemleyebilecektir. Bu da onların doğru bir öz değerlendirme yapmalarına ve motivasyon sağlamalarına yardımcı olacaktır.

IMPORTANT WORDS & VOCABULARY TESTS & UNIT TESTS
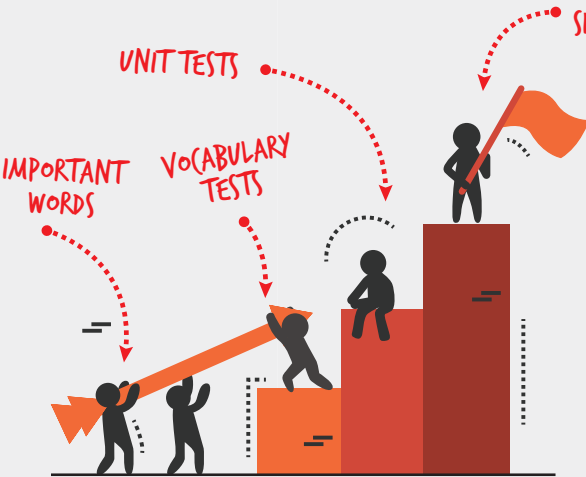

Her ünite içerisinde yer alan önemli kelimeler (important words) listesi, ilgili ünitede sık kullanılan kelimeleri içermektedir. Bu kelimeleri öğrendikten sonra kelime testleri (vocabulary tests) ile öğrendiğiniz kelimeleri pekiştirecek ve ünite testlerini çözmeye hazır hâle geleceksiniz.
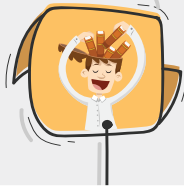

Kelimeleri öğrenip pekiştirdikten sonra ünite testleri (unit tests) ile kazanımlara yönelik temel soruları çözecek ve beceri temelli testleri çözmek için gerekli altyapıyı oluşturmuş olacaksınız.

SKILL-BASED TESTS

Değişen sınav sistemindeki sorularda başarılı olmanız için hazırlanan özgün sorulardan oluşan beceri temelli testler (skill-based tests) siz öğrencilerimize;
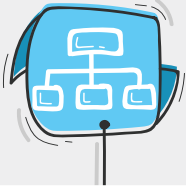

| tablo, şekil ve grafik yorumlama | mantık yürütme ve muhakame etme | eleştirel ve analitik düşünme | üst düzey düşünme |

becerilerini kazandıracaktır. Bu testlerde yer alan soruları çözdükten sonra İngilizce dersinde daha sağlam bir temel oluşturacak ve daha başarılı olacaksınız.

Bu kitabımızın tüm öğrencilerimize faydalı olmasını temenni eder, iyi çalışmalar dileriz.

Answer the questions (9-10) according to the text below.

Hi! I'm Paul. I want to give you some information about how many hours my family members watch TV every day. My sister, Mary, watches TV more than everyone in my family. I think she is a television addict because she skips meals and stays up late to follow some TV programmes. I warn her not to watch TV too much, but she doesn't care. Soap operas are her favourite. My mother, Kate, rarely watches TV. She spends less than an hour in front of the television. She watches only cookery programmes. My father, John, watches TV only in the evenings. He watches TV more than my mother and me. He prefers quiz shows to the other types of programmes. I know you want to learn how much time I spend watching TV. Well, I watch it only two hours a day. I like watching the news more than the other kinds of programmes because I find them informative.

Answer the questions (9-10) according to the texts below.

WHAT DO YOU PREDICT ABOUT THE FUTURE?

We asked our readers to share their predictions about the future. Let's read them and imagine the future world.

Terry

I think people will change their settlements in the future. People lived in villages 100 years ago, but now we are living in big cities. In the near future, we will live in underwater cities and on other planets.

Daisy

I guess there will be climate changes in the future, so we won't be able to see any winter months 50 years later. We will also have droughts. We will lose our seas and forests. Hundreds of animal species will lose their habitats.

Frank

I believe there won't be many illnesses in the future. There will be robot doctors in our homes. They will give us some pills when we don't feel well. They will also tell us when we should go to the hospital.
